

East Penn Twp Volunteer Fire Company introduces a public safety program for our residents and neighbors...

"911" Address Sign Program

"We can't help you... if we can't FIND you!"

Every second counts during a fire, police or medical emergency. Valuable time can be lost if your house number is not clearly posted where emergency responders can see it. Police officers, firefighters and EMS responders can't provide lifesaving services to you and your family if they cannot find your house.

The East Penn Twp Volunteer Fire Company is offering to provide you with a highly-visible sign in order for responders to locate your residence in a more timely manner, potentially saving time... and lives!

"Do I really need one of these signs?"

Try this... drive or walk up and down your street. Put yourself in the position of a rescuer that's responding to your house in a life-or-death situation. Can your house number be seen clearly and easily from the street... and especially at night?

Rescue personnel will tell you that finding the correct residence is one of the most difficult parts of responding to an emergency. Wasted minutes and seconds can mean the difference between life and death.

Recognizing the importance of this safety program, the East Penn Township Supervisors passed ordinance 2017-01 requiring every home to display a sign which permanently displays the building number designated by Carbon County for the 911 emergency call system.

The Signs and Pricing

The signs are made of aluminum (same grade as road signs) with a reflective green backing and 3" reflective white numbers on both sides. They are 6" wide and 18" tall. They are made to be installed on a post for the greatest visibility from the street. Signs will be \$15.00 each and can be made for horizontal or vertical mounting. Please specify your choice along with the exact building number for your residence as specified by Carbon County 911.
